SPECIAL MESSAGE FROM ANNA

THANK YOU

Your kindness shown during the recent passing of my Mom continues to be greatly appreciated. There are many blessings we are given throughout life and I want you to know being part of the "District 5 Extension Family" has truly been a gift. Please continue to keep my family in your thoughts as we face the days ahead. We will greatly miss the blessing received through her positive influence and cherished relationship with family.

THANK YOU

I want to express once again my "Thanks" for all you continue to do to serve your counties well during the COVID-19 pandemic. I know there have been and continue to be challenges, but the special efforts being made to adapt your programming to meet the needs of your clientele are truly appreciated and are making a positive difference in the lives of others. It will be my hope as we move forward, you and your families will remain safe and counties will continue to be blessed with the wonderful educational opportunities of the Cooperative Extension Service.
