

Financial Report Form

County _____

Program Year _____

University of Kentucky
 College of Agriculture,
 Food and Environment
Cooperative Extension Service

List grants, gifts and contracts received for the past program year. Include only those for which a dollar value is known. Do not include in-kind contributions. **Contracts** are those agreements that specify specific deliverables within a specified period of time with required financial and program accountability (ex., 21st Century after-school program). **Grants** are less specific in defining expectations and accountability, but do indicate generally for what the money will be used (ex., conduct farm safety program). **Gifts** may or may not have a designated purpose, but have no specific expectation for accountability (ex., camp scholarships).
